ABSTRACT

The **"NARAYAN PILGRIMAGES"** is a website dedicated to tour and travel of Vrindavan and Mathura specially. The site may be focused on telling enchanting stories about the temples and the place, blogs, recent announcements, near by hotels and hospitals etc. Many travel website are only travelogues or travel jornals, usually created by individual travelers and hosted by companies that generally provided their information to consumers for free. The purpose of website is established fact that Internet users are increasing rapidly. One of the main factor is the Gen Z attraction nowadays towards the mythological sector of India. As the generation deeply rooted in digital culture, Gen Z demonstrates a pronounced interest in mythological narratives across various forms of media, influencing their preferences, cultural engagement and self expression. India is a country where in few holidays you can enjoy a lot. The problem is that we although having many websites but they offer different kind of services.The customer is enjoying a lot but there is a lack of mythological touch hence we are providing it and serving all the customers in the same manner tat we wish to be served. We need to build a worls class team armed with knowledge of their roots and backed by technology to advise customers in planning of their holidays and to answer their queries. We will be putting an effort to provide them services which they need in duration of their holiday and we will like to hear from our customers because customer feedback will encourage u to imporve our services. In this website customer will be provided with an AI chat bot too as a helper which will help them in whatever way they want like providing them itinerary, weather checks etc. We provide nearby best hotels, restaurants and hospitals for relaxation, food and emergencies. Customer can also get to know about the recent news of the places.

CHAPTER 1: INTRODUCTION

1.1 OVERALL INTRODUCTION

The tag line says "**Journey To Abode Of Krishna - Evoke Divine Essence.** It is a complete web package. Narayan Pilgrimages is a web application that present an aggregated view of world wide web (www). Narayan Pilgrimages contains only relevant services that are a need of customer. Narayan tour & travels has various features which are basically services that Narayan Pilgrimages provides. Best part is, Narayan Pilgrimages uses an integrated AI chat bot to provide all the necessary informations the customer wants like the weather of the place, various packages, can make itinerary for them etc. Narayan Pilgrimages is designed especially for customers who want to know more about Vrindavan & Mathura but from a mythological point of view too. Narayan tour & travels helps customer to go travel right path for destination . It saves a lot time for the users as it provides all the necessary features at one place. India is one of the most beautiful location of South Asia, is also among the popular countries of the world. Therefore this tourist hub welcomes more than 5 million foreign tourist from different locations of the world. India is very well known for their roots and mythological side too. A trip to this beautiful holy abode of krishna can reveal numoerous mystic things regarding the culture, art, traditions, history etc, known for its spectacular, Vrindavan and Mathura has become a favored place of visit for travelers from all over the world. Mathura and Vrindavan attract hordes of devotees and curious travellers every year.

1.2 BACKGROUND

In the world of internet, Whole information is scattered. It contains a lot information but generally, we require only handful of information. Our daily activities on internet revolves around a few basic websites. We don't know how to extract necessary information from the vast internet, or else even if we know how to extract, we spend a lot of time in finding the information. No website on internet is flexible enough to meet all the basic needs of any internet user. General queries of customer range form finding solution to a code to booting a system.

1.3 MOTIVATION AND PROBLEM FORMULATION

In the world of internet, whole information is scattered. Internet is a pool of knowledge. It contains a lot of information but generally, we require only a handful of information. Our daily activities on internet revolve around a few basic websites. We don't know how to extract necessary information form the vast internet, or else if we know how to extract, we spend a lot of time in finding the information. No website on internet is flexible enough to meet all the basic needs of any internet user.

1.4 METHODOLOGY

a) Front End Designing: Front end refers to visual layer of website and applications. Typically, the UI, Layout, typography, images and other visual elements and their styling. It comprises of,

  (i) Creating mockups and developing visual standards.
  (ii) Structuring semantic content.
  (iii) Handling site accessibility.
  (iv) Site typography
  (v) Page layout
  (vi) Form design
  (vii) Interactivity and Animation
  (viii) Creating site imagery

1.5 CONTRIBUTION

The contribution of this project will go in many ways of the society and the present education system. Due to this project the pattern of tour and travel will be totally changes by the automated system and will produce accurate, fast and transparent result system.

CHAPTER 2: BACKGROUND THEORY

2.1 PROJECT DEVELOPMENT APPROACH

2.1.1 SOFTWARE PROCESS MODEL

To solve actual problems in an industry, software developer or a team of developers must incorporate a development strategy that encompasses the process, methods and tools layers and generic phases. This strategy is often referred to as process model or a software developing paradigm. A process model for software developing is chosen based on the nature of project and application, the methods and tools to be used, and the controls and deliverables that are required. All software development can be characterized as a problem solving loop in which four distinct stages are encountered: Status quo, Problem definition, technical development and solution integration. Regardless of the process model that is chosen for a software project all of the stages coexist simultaneously at some level of detail.

Our project follows waterfall model
The steps of typical waterfall model are:
a) Requirement definition
b) System & Software Design
c) Implementation
d) Integration & System Testing
e) Operation and Maintenance

2.2 FEATURE OF THE SYSTEM
The new system has been designed as per the user requirement so as to fulfill almost all them.
a) AI chat bot (Quick scheduling, various packages exploring, weather checkups, itinerary planner and etc)
b) Enchanting stories and Description of every temple (Giving mythological touch to the site)

c) Recent Announcement

d) Nearby Hospitals and Accommodation with integrated map

2.3 MODULES

2.3.1 HOME PAGE

The whole designing part of the home pages with all the button, AI chat bot and link working as desired.

2.3.2 RECENT ANNOUNCEMENTS

In this module the recent news part of this project is done which includes recent update of vrindavan and mathura.

2.3.3 HOSPITAL AND ACCOMMODATION

These modules include nearby hospital and hotels with direct access of maps.

2.3.4 LOGIN / REGISTRATION

In this module login part of the project is done which include sign up and login form. Tho right now we have not included backend to it.

2.3.5 OTHER MODULES

Their are several small modules like blogs, places, services, about us page, contact page etc. The coding of these pages are included in these modules.

3.3 REQUIREMENT ANALYSIS

3.3.1 HARDWARE REQUIREMENT

a) Internet explorer

b) Computer or Laptop

c) Mouse

d) A multi-core processor to handle server-side processing efficiently.

e) Sufficient RAM

f) Use SSDs for faster data access.

g) Adequate bandwidth to handle data transfer.

h) Consider redundant hardware to minimize downtime in case of failures.

3.3.2 SOFTWARE REQUIREMENT

a) Operating system: Windows

b) Programming Languages: HTML, CSS

c) Chat bot: Botpress studio

d) Source code editor: VS code studio

    <h1 class="cool"> Mathura admin bans firecrackers in red, yellow zones around Krishna Janmasthan Temple! </h1><hr>
        <p>Ahead of Diwali, the Mathura district administration has banned the storage, sale and bursting of firecrackers in the red and yellow zones around the Krishna Janmasthan temple and the adjoining Shahi Eidgah mosque, officials said on Sunday. </p><br>
    <p>Both the shrines lie in the <strong>red zone</strong> covering 13.37 acres, while an area of 20 acres outside it is the yellow zone comprising localities such as Govindnagar and Jagannnathpuri. The rest of the city has been earmarked as a green zone.
        The office of the city magistrate said in view of the security of the Krishna Janmasthan and Shahi Eidgah, like previous years, this year too, firecracker shops would not be allowed to be set up in the red and yellow zones of the temple and the mosque.</p><br>
    <strong>Note:</strong> This step has been taken to ensure the safety of visitors to the temple during Diwali, the officials said. The order will be implemented with immediate effect and will remain in effect after Diwali as well, they added.<br>

    <h1 class="cool"> SC refuses to stay proceedings in HC on suits related to Sri Krishna Janmabhoomi-Shahi Idgah dispute.</h1><hr>
        <p>The Supreme Court on Friday refused to stay the proceedings before the Allahabad High Court on suits related to the Sri Krishna Janmabhoomi-Shahi Idgah dispute, saying it will not be fair to interfere with the high court order without hearing both the sides. The apex court was hearing a petition challenging an order of the high court which had transferred to itself all matters related to the dispute pending before a Mathura court.</p>
    <p>The plea filed by the Committee of Management Trust Shahi Masjid Idgah challenging the May 26 order of the high court came up for hearing before a bench headed by Justice Sanjay Kishan Kaul. The counsel appearing for the petitioner urged the bench, also comprising Justices Sudhanshu Dhulia and Ahsanuddin Amanullah, to stay the ongoing proceedings before the high court.</p><br>
    <strong>Note:</strong> The petitioners before the high court had requested that the original trial must be conducted by the high court like Ayodhya's Babri Masjid-Ram Janmabhoomi title dispute.<br>
